ABOUT ME

I am an enthusiastic, self-motivated, reliable, responsible and hard working person. I am a good team worker and adaptable to all challenging situations. I like to do designing work more often as it's one of my hobby. My future goals are to make network around people and explore the various fields related to IT sector.

WORK EXPERIENCE

Infiway Software Pvt.Ltd

May 2022 - Jul 2022

Attendance Management and Invoice System

- To overcome the problems of manual attendance, I have developed "web based Attendance Management System and Invoicing (Billing) System".
- In This web module, PHP is server side language, MySQL and PHP is used as back-end design and HTML, CSS are used as front-end tools. The system communicates with database residing on a remote server.

PROJECTS

E-store

[Link to Repo](#)

- Any online business, requires features such as wishlist, products categorization, various types of filters, payments, customer management and backend. E-commerce app is designed to satisfy all these requirements so that it saves the valuable time of our customers and gives a wide variety of options to choose from at one stop.
- The interface is designed using flutter, a multi-platform supporting framework. Also, this application involves a lot of data transfer, as a user is expected to scroll through a lot of products before purchasing.

College Corner

[Link to Repo](#)

- This website is designed to help students for fetching varieties of materials.
- It is a single platform for students and teachers to deal with their work.
- Languages i used to built this website are PHP, HTML, CSS, and JavaScript.
